<b>EVALUATION CRITERIA (as listed in RFP)</b>	<b>VALUE</b>
Price	
Warranty	
Number of prior commercial jobs	

## RFP 2019-05 Bus Building Roof Repair Proposal Evaluation

### Instructions

The proposals will be ranked using the following weightings:

- Price: 80%
  - Firm with the lowest price will receive the maximum points possible. Formula for determining points will be as follows:
    - $\frac{\text{Lowest Price}}{\text{Bidder's Price}} \times 80 = \text{total score}$
- Warranty: 10%
  - Firm with the best warranty will receive the maximum score. Formula for determining points will be as follows:
    - $\frac{\text{Best Warranty Rank (1)}}{\text{Bidder's Warranty Rank}} \times 10 = \text{total score}$
- Experience: 10%
  - Contractors with experience performing 3 prior commercial jobs will receive the maximum score. Formula for determining points will be as follows:
    - $\frac{\text{Contractor's prior commercial job experience}}{3} \times 10 = \text{total score}$

The total score for each proposal will be calculated by adding the individual evaluation criteria scores.

See next page for Vendor Scoring Tables.
